Source: Company 10-k filings with the Securities & Exchange Commission, selected financial data tables. Figures are rounded.

**Note:** Selected financial data tables include figures for each year in a five-year period. The figures included in this table are taken from the most recent filing that includes figures for that year, rather than from the filing for that year. (At times, companies revise net income figures in subsequent years.)

Additionally, in 2007, **UnitedHealth Group restated its earnings** for 2004 and 2005. On its website, the company has issued the following statement: "Previously filed Form 10-Ks and Form 10-Qs which contain financial information for the fiscal years ended 1994 to 2005...have not been amended and should not be relied upon." This table includes restated figures for 2002 to 2005, as reported in the company's 10-K for 2006. Figures for 2000 and 2001 are taken from the company's unrevised filing for 2004.
