

HEALTH CARE FOR AMERICA **NOW!**

TRUMP/GOP PUSHING AGAIN TO TAKE AWAY OUR CARE

NEWEST HORROR - NO MORE PROTECTIONS FOR PEOPLE WITH PRE-EXISTING CONDITIONS!

Trump, Pence and Ryan are doing everything they can to [bring their plan](#) to destroy our health care. In order to win the votes of the extreme right they are now planning to allow insurance companies to charge whatever they want to people with pre-existing conditions and to sell junk health insurance.

As the *New York Times* health insurance analyst [wrote](#): "...the proposed changes would effectively cast the Affordable Care Act's pre-existing conditions provision aside."

HERE'S WHAT WE KNOW ABOUT THE LATEST REPUBLICAN PLAN:

- ***Allows insurance corporations to charge people with pre-existing conditions whatever they want.*** The Trump/GOP proposal guts the protection against health insurers hiking premiums for people with pre-existing conditions.
- ***Barebones insurance that doesn't require any coverage.*** Allows insurers to not cover hospitals, doctors, prescriptions, lab tests, mental health, maternity and newborn care, preventive care, and substance abuse. There's a reason these are called essential health benefits.
- ***Allows insurance companies to cap how much they pay for your care.*** Eliminating essential health benefits also eliminates the prohibition on health insurance companies putting annual or lifetime limits on how much they pay for your care.
- ***Higher Premiums for People Who Actually Need Health Care:*** Health insurance companies will sell barebones plans which leave off basic coverage at a low price and hike the prices of coverage that covers care people actually need, with the biggest hikes for people who have had any medical care.

***AND IT STILL TAKES HEALTH COVERAGE AWAY FROM 24 MILLION PEOPLE,
HIKES INSURANCE PREMIUMS, HITS PEOPLE IN THEIR 50s and 60s the
HARDEST AND SLASHES MEDICAID BY \$880 BILLION.***

**TELL YOUR MEMBER OF CONGRESS
TO PROTECT OUR CARE.**
